Notice of Allowability	10/692,909	TAJIMA ET AL.	
	Examiner	Art Unit	1
	Hai C Pham	2861	A
The MAILING DATE of this communication appears on the cover sheet with the correspondence address All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS. This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.			
1. 🔀 This communication is responsive to <u>Amendment filed 09/11/04</u> .			
2. X The allowed claim(s) is/are 14-16,33,34 and 50-108.			
3. X The drawings filed on 24 October 2003 are accepted by the Examiner.			
 4.			
Paper No./Mail Date Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).			
7. DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.			
 Attachment(s) 1. Notice of References Cited (PTO-892) 2. Notice of Draftperson's Patent Drawing Review (PTO-948) 3. Information Disclosure Statements (PTO-1449 or PTO/SB/O Paper No./Mail Date	5. Notice of Informal F 6. Interview Summary Paper No./Mail Da 7. Examiner's Amenda 8. Examiner's Statema 9. Other	(PTO-413), te ment/Comment	ŕ

Art Unit: 2861

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: claims 14, 16, 33-34, 50-52, 71 and 90 are patentable over the prior art patents and printed publications because of the specific lens positioning device included in each of the plurality of scanning optical devices of an image forming apparatus, each of the plural scanning optical devices having a light source, a light beam deflector and a plurality of lenses for focusing the deflected light beam onto a surface to be scanned to form an image, wherein the lens positioning device allows at least one of the plural lenses in each of the scanning optical devices to rotate about the longitudinal axis of the respective lenses, the longitudinal axis being parallel to the main scanning direction, such that the scan line images formed by the respective scanning optical devices are substantially the same. This serves to even reduce imperfections of the curvature of the scan line image formed by each of the scanning optical devices and is not taught by the art of record alone or in combination.

Claims 15, 53-70, 72-89 and 91-108 are allowed because they are directly or indirectly dependent from claims 14, 52, 71 and 90 above.

The prior art made of record, Ota et al. (U.S. 5,784,094), discloses a color image forming apparatus including four scanning optical devices, each having a light source, a deflector, a plurality of imaging lenses, and a means for correcting a curved scanning line such that the characteristics or shape of the respective scan line images are made the same by rotating the respective glass plates disposed close to the image forming

surface in each of the scanning optical devices. However, Ota et al. fails to teach the correcting means rotating the respective imaging lenses in correcting the curvature of the scan line images.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

- 2. The terminal disclaimer filed on 09/11/04 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of U.S. Patent No. 6,677,973 has been reviewed and is accepted. The terminal disclaimer has been recorded.
- 3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hai C Pham whose telephone number is (571) 272-2260. The examiner can normally be reached on M-F 8:30AM 5:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David L Talbott can be reached on (571) 272-1934. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
